Big Tempelhof Airplane Hit in A.F. Raid

Anhalter Railroad Station, Gun Positions in German Capital Are Struck By Heavy Explosives

By DAN CAMPBELL

British United Press. Exclusive Cable to The Edmonton Bulletin.
LONDON, Sept. 12.—British bombers dumped heavy loads of high explosives on military objectives in the heart of Berlin again today, the air ministry reported, damaging the great Tempelhof aerodrome, the Anhalter railroad station and gun positions in the Tiergarten.

Starting at midnight, the second straight night raid on the German capital coincided with widespread and damaging British bomber attacks on Nazi targets throughout northwestern Germany, in the Low Countries and along the French coast, where Prime Minister Winston Churchill reported Adolf Hitler was massing men and ships for a possible attempt to invade the British Isles next week.

Today's War Moves

By J. W. T. MASON

British United Press. Exclusive Cable to The Edmonton Bulletin.
LONDON, Sept. 12.—The R.E.A.F. reports that Germany is completing the long-heralded plans for invading Great Britain do not coincide from the standpoint of military strategy, with the present German air tactics. The natural prey for the invasion should be an intensive, unremitting air effort against the British aviation arm coupled with devastating bombings at possible coastal landing places. Instead of these normally essential precautionary movements, the Germans are continuing to concentrate their efforts upon vengeance raids against London.

It is possible, of course, that the German high command believes it has sufficiently exhausted British air power and has done enough damage to the British coast to make an invasion possible after a few days of rest.

Concentration of troops and troops on the German occupied side of the Channel point to technical preparations for embarkation. But, until the way is cleared for the crossing and landing, an attempt at invasion would be foolhardy. It would be in keeping with German military efficiency, devastating attacks on the Channel coast, to make an invasion possible.

Weather uncertainties in the Channel usually bring next week. Appearance of equinoctial gales in the latter part of September is unreliable and the Germans might take a chance that they would not be heavy this season. But October is almost certainly a month of strong winds alternating with

Named Moderator

RT. REV. AUBREY S. TUTTLE, President of St. Stephen's College of the United Church of Canada, was named moderator of the annual conference of the United Church of Canada, which opened its sessions in Winnipeg.

EDMONTONIAN MODERATOR OF UNITED CHURCH

RT. REV. A. S. TUTTLE Named As Ninth General Council Officer

WINNIPEG, Sept. 12.—Commissioners to the Ninth General Council of the United Church of Canada yesterday began an executive study committee report under the guidance of a new moderator, Rt. Rev. Aubrey S. Tuttle of Edmonton, where he presides of St. Stephen's College.

The new moderator was elected at the initial session of a 10-day meeting, which was held at the University of Winnipeg, where he presides of St. Stephen's College.

WAR LOAN HITS 20 MILLION DOLLAR MARK

Popular Subscriptions Are Needed To Put Issue Over Top

OTTAWA, Sept. 12.—Canada's second war loan crossed the \$200,000,000 mark Wednesday and today's preliminary figures for last night's public subscription in the first three days of the campaign reached \$201,500,000. The objective is \$300,000,000.

The day saw the start of a renewed drive by the entire selling organization to put the loan "over the top" with popular subscriptions. The drive is intended to bring in a greater proportion of small investors, who would lend their savings or income.

It is well to recall that in lending their money to the government, the people are making the lending government, which is the government of the day and at the same time they help to defend their whole way of life, said Finance Minister Duley.

One of the largest private subscriptions to the loan was made today by R. S. McLaughlin of Ottawa, Ont., president of the Canadian Motor of Canada Ltd. He applied for \$1,000,000 of the 10-year term secured.

In Toronto seven people refused to sign their names to the loan and insisted on giving the dealer.

FIRST CALL TO ARMY TRAINING EXPECTED SOON

All Canadian Doctors Have Been Made Military Examiners

OTTAWA, Sept. 12.—A proclamation advising all Canadian single men of 21 to 24 years inclusive and widowers of these years who are childless, that they are liable to call-up for 30 days compulsory military training will be issued probably late today or tomorrow, it was announced today.

The actual call to training will follow this proclamation. According to a previous announcement the plan is to call 40,000 men, single or widowers, of 21 to 24 years of age, the first batch of 20,000 men to undergo compulsory training starting on Oct. 9.

The announcement today was made by Maj.-Gen. L. R. LaFleche, deputy minister of national defence services, on behalf of his minister, C. G. Duggan.

Gen. LaFleche announced that medical practitioners in Canada, approximately 10,000, had been appointed examining physicians under the national war services regulations, to examine men called for training.

He said, had been done so men called would be able to get their physical examination without having to travel away from their homes. The physicians will receive a fee of \$1 for each examination, paid by the government.

Gen. LaFleche was unable to give any details of the proclamation which had not yet been approved.

URGE WORKERS TO CARRY ON DURING RAIDS

By HAROLD FAIR

Canadian Press Staff Writer
LONDON, Sept. 12.—To carry on in the face of many military industries have adopted a practice of placing "spotters" on roofs to give a warning if raiders, whose presence is already announced by newsprinters, attempt to parachute.

The Daily Express published a front-page picture of its spotters, wearing tin hats and field glasses, who keep watch from the roof of the big brick building at Fleet Street where Lord Beaverbrook's paper is published.

The report, prepared by a committee on economic and social research, urged the church to support all reasonable and constructive efforts to obtain Federal and provincial legislation for improvement of collective bargaining procedures.

I said the United Church should not just stand in a statue in a law as a means by which the workers and the people could be "it is clear that there are marked lines in the creative force of the workers and the people could be "it is clear that there are marked lines in the creative force of the workers and the people could be

Children Arrive

UNITED CHURCH ANXIOUS ABOUT SOCIAL RIGHTS

WINNIPEG, Sept. 12.—The United Church of Canada "believes that the war emergency should not be used by either capital or labor, for the advancement of their respective interests, said a report presented today to the ninth general council of the church meeting in Winnipeg.

The report, prepared by a committee on economic and social research, urged the church to support all reasonable and constructive efforts to obtain Federal and provincial legislation for improvement of collective bargaining procedures.

I said the United Church should not just stand in a statue in a law as a means by which the workers and the people could be "it is clear that there are marked lines in the creative force of the workers and the people could be

Luft Follows Heaviest Air Raid At Night

Greatest Aerial Barrage in History Is Thrown Against Nazi Attackers In Night of Terror

LONDON, Sept. 12.—An official statement said tonight 1603 persons were killed in air raids on London Wednesday.

LONDON, Sept. 12.—German aircraft were reported tonight over the northeast, the northwest and the midlands of England as well as over Scotland.

LONDON, Sept. 12.—A reconnaissance raid by German scouting planes shattered a quiet day in London today following a night in which British anti-aircraft guns hammered the sky with the heaviest aerial barrage in the history of aerial warfare.

The evening raids came over at the usual time—between 1:30 p.m. and 6 p.m. (8:30 a.m. and 10 a.m. M.S.T.)—and buzzed over the city. There was no sound of exploding bombs.

Military authorities believe that these evening raiders are sent to disrupt domestic life and to cause panic among the population for evening night.

It was the one living ready-made for the war of attrition.

FIRST CALL TO ARMY TRAINING

Continued from Page One

ally. He said it was the intensity and expectation of obtaining the men needed for the first training period from the 21-year-class.

It was possible, however, that some of the 13 administrative divisions in Canada there would be sufficient for the 21-year-old class to fill out the quota, in that case the 22-year-old class would be called to make up the deficiency.

After the proclamation is published, the provincial registrars in each of the 13 administrative divisions into which Canada has been divided for purposes of the act will send out the call the first batch of men to examine, advising each man individually by registered letter.

He examining physician will fill a prescribed medical sheet, substantially the same as that used in Non-Permanent Active Militia, and send it to the registrar of his division.

It is not proposed to call for training at present any man whose examination discloses him in category lower than C1. Class C2 embraces men able to do work of a sedentary nature — clerks, bairmen, cooks, booties and storemen.

FITNESS SLIPS
Certificates of unfitness for these military rejected will be issued to national war services headquarters at Ottawa, through the regional registrars.
The fee of \$1 was fixed after consultation with officials of the Canadian Medical Association.

was noted in the announcement that this was a small fee but was considered to be in conformity with what a medical officer in the army receives from the standpoint of time occupied making the examination.

Agricultural workers will not be called for the first training period. Arrangements will be made so that essential industries are not seriously interrupted by men being called away for training.

Movie Receipts

In Dominion Are

Highest In Years

OTTAWA, Sept. 12.—The war apparently had little effect on theatre-going public last year, the Dominion Bureau of Statistics said yesterday in reporting receipts were the highest since 1931. Better wheat conditions in the prairie provinces and a good revenue.

Patrons of motion picture houses had a total of \$34,010,115 for general admission, exclusive of amusement taxes, highest since 1931 and up by 10 per cent over the \$33,835,052 in 1931. The number of admissions at

the preceding year, British Columbia continued to occupy first place in per capita expenditure on motion picture entertainment with an average of \$4.93.

FRENCH SHIPS PASS THROUGH GIBRALTAR

War Vessels Escape From
Toulon to Join Britain,
Is Belief

CEUTA, Morocco, Sept. 12.—Three destroyers escorted by three destroyers, all flying the French flag, were reported heading for the Atlantic through the Straits of Gibraltar Wednesday—unmolested by British batteries at Gibraltar.

It was the possibility that some of the French fleet might be at Toulon have escaped from that British naval base and are joining Britain.

The Berlin radio yesterday broadcast a dispatch from Munich claiming that a British fleet had sailed into the Mediterranean from Gibraltar. The dispatch claimed that "several" British cruisers previously had sailed from Gibraltar into the Atlantic.

Disposition of French Fleet War Mystery

Disposition of the French fleet following the Franco-German armistice has been a war secret since the one-hundredth anniversary of the battle of Toulon. The French fleet was reported to the Vichy regime off the north coast of Africa last July 2.

But Prime Minister Churchill told the House of Commons July 4 that "early yesterday morning, July 3, the French fleet was reported to have sailed from Toulon, and we took the greater part of the French fleet under our control, or else called upon them with an adequate force to comply with our demands."

It was never known how many French naval vessels remained in French harbors, but there were some, particularly at Toulon. French vessels in British harbors were boarded for the most part without incident since July 3.

Some of the French seamen expressed a desire to fight on with Britain and were allowed to do so.

The battle off the north African coast was fought mainly at Oran, Algeria. Britain made formal demands on French commanders for important units stationed there stating that "it is imperative that we must allow your fine ships to fall into the power of our German or Italian enemies." They were asked either to sail with the Royal Navy and continue the war, or to be taken up and delivered to British ports, or to scuttle the vessels.

The ultimatum expired within six hours, and the British ships took possession of the fleet.

FLEET DESTROYED
When the smoke of battle cleared the British ships found that the French fleet was sunk. Two destroyers were sunk, the 35,000-ton battleship Dunkerque was damaged and beached, the Strasbourg, a battle cruiser, was damaged by an aerial torpedo and beached.

One or more French battleships, four cruisers and a number of smaller ships were detained at Alexandria by the British fleet, and in British ports there were at least two battleships, three heavy cruisers, eight destroyers, four submarines and 200 smaller French ships.

On July 9, A. V. Alexander, first lord of the admiralty, told the House of Commons that 33,000 tons of supplies, including 10,000 tons of food, had been captured while the French fleet was in British ports. He said that the supplies were captured at Dakar, in Senegal, L. Conde, in British Guiana, and in private life is a London stock broker.

On July 8 dropped depth charges from a torpedo boat crippling his battleship as she lay anchored at Dakar. He was subsequently given the D.S.O. for his "bravery and skill."

In informing the House of Commons of this action Mr. Alexander spoke of the battleship as being the French capital ship to be put out of reach of the Germans following the armistice.

FRENCH STRENGTH
Before France's capitulation the republic had nine capital ships built or building, of the number two were taken over in British ports, one joined the fleet at Alexandria, one was sunk, one was beached and one was damaged. One was badly damaged but escaped.

France also had in active service at the war's start one aircraft carrier, seven heavy cruisers, 12 other cruisers, 80 destroyers, and 74 submarines.

Known to have escaped from the battle of Oran in addition to the damaged Strasbourg were five fleet leaders and destroyers, with some submarines and torpedo boats.

Several French warships have been in the harbor at Marseilles since the French armistice. The warships include the 22,000-ton aircraft carrier, Beaulieu, the auxiliary cruiser Ravel, 2,400 tons, the 6,000-ton training cruiser Jeanne d'Arc, several submarines and some anti-aircraft ships.

**Border Clash Is
Reported Between
Yugoslav-Albania**

BELGRADE, Yugoslavia, Sept. 12.—Border clashes between the Yugoslav and Albanian irregulars were officially reported Wednesday night after Defence Minister Gen. Milic Nedovic issued an order of the day attacking soldiers for violent actions.

He said six Yugoslav had been killed and many injured, in clashes along the border with Albania, occurred by Italy.

Unofficial reports said that some of the Yugoslav soldiers were attacking Albanian villages, and that some of the Albanian soldiers were attacking Yugoslav villages.

Some of the Albanian soldiers were attacking Yugoslav villages, and that some of the Yugoslav soldiers were attacking Albanian villages.

U.S. PRESIDENT ASKS SUPPORT LABOR UNIONS

Roosevelt Opens Election
Campaign—Stands With
Party On War

By RICHARD L. TURNER
Associated Press Staff Writer
WASHINGTON, Sept. 12.—Approving the conception of non-cooperative industries for national defense purposes, President Roosevelt Wednesday delivered a major address of his 1940 election campaign and made of it an appeal for the support of organized labor.

He spoke before a convention of the Teamsters Union, which earlier in the day had endorsed him for a third term. He praised the gains for labor which he contended were the result of New Deal legislation, and emphasized that national defense needs require no relaxation of those reforms.

"I am convinced," he said, "that a breakdown of existing labor and social legislation would weaken rather than increase our efforts for defense. Continuance of them means the preservation of the efficiency of labor. It means the return to work of several millions of unemployed."

CRITICIZES OPPONENTS

The President lashed out at arguments of his opposition which, he said, are endeavoring to make the national defense crisis an excuse for stopping the progress we are making in labor and labor legislation, and for repealing the New Deal amendments.

Progress, he asserted, had been slow and difficult, "but by obstinacy and by bitter propaganda" from those who had grown accustomed to "the exploitation" of the masses working for them.

He declared:

"The people must decide whether to continue the type of government which has fostered the progress to date, or whether to turn it over to those who by their action, if not always by their word, have shown their fundamental opposition to the main objectives toward which we have worked and to which we are definitely committed for the future."

NATIONAL DEFENSE

Discussing national defense plans and reporting them progressing satisfactorily with a growing popularity, the President said that "in all of these plans for national defense, only those who seek to play upon the fears of the people, and who attempt to lead us into war, have been previously expressed determination to keep the United States out of the conflict abroad."

"Weakness in those days is a cordial invitation to attack. That is no longer true; it is a proven fact—a proven fact in the past year," the President said.

WAR POLICY

"I hate war now more than ever! I have one suggestion—don't do it! I can't keep war away from them, but for the first time I stand, with my party, upon the platform adopted in Chicago."

"We will not participate in foreign wars, and we will not send our army, naval or air forces to fight in foreign lands outside of the Americas, except in case of self-defense."

"Let us have an end to the sort of appeasement which seeks to keep the peace by playing upon the fear and by indirect sabotage of all the progress we are making. 'Appeasement' is a word used for misdirected partisanship."

There are 168,000 miles of telephone wires in the world.

Double Features

The judges could see with half an eye that the Wild sisters of East St. Louis, Ill., were the "most identical" in their class at the recent International Peoria Convention in St. Louis, Mo. Holding rings they were as left to right, according to reliable authority, Mary Lorna Wild and sister Marion Lee Wild.

YUKONERS ARE OUT OF MILITIA TRAINING ZONE

OTTAWA, Sept. 12.—If the Yukon's single men or widowers without children want militia training they'll have to wait about for themselves. For them there will be no compulsory call to training because they are too far from a training centre.

The nearest centre is Grande Prairie in the Peace River country, more than 200 or 250 miles, depending on the starting point, as the Arctic plainland flies—and they are 300 to 400 miles.

Mr. Justice T. C. Davis, associate deputy minister of war services, made the point known last night. National registration revealed only 10 single men or widowers without children and 21 years of age in the Yukon and Mr. Davis said they would not receive a notice to report to training centre about Oct. 9 when the first batch of 21-year-olds is called in from southern areas.

Out of a total of male population of 24,000 (census 1931) in the Yukon, the department found 820 men single or childless widowers between the ages of 18 and 45. "They will not be called," said Mr. Davis. "It is too far to bring them down."

SUPPORT LOAN AND FIX HUNS SAYS RALSTON

YANCOUVER, Sept. 12.—Hon. J. R. Ralston, minister of national defence, praised Canadiana Wednesday for a torpedo boat crippling his battleship as she lay anchored at Dakar. He was subsequently given the D.S.O. for his "bravery and skill."

In informing the House of Commons of this action Mr. Alexander spoke of the battleship as being the French capital ship to be put out of reach of the Germans following the armistice.

PROMPT ACTION TO FUND APPEAL BY AUSTRALIA

MELBOURNE, Sept. 12.—Proposals to aid victims of the German air force's repeated bombings of London has evoked an enthusiastic response throughout Australia.

Melbourne city council has voted \$50,000 to the Lord Mayor's fund of London and the Lord Mayor of Adelaide, Brisbane, Perth and Hobart are also opening appeals. Nearly \$38,000 was received one hour after the Brisbane appeal was launched.

Australian children are also doing their bit. Children of Camberwell, Melbourne suburb, are sending \$4,410 to children of Camberwell, in South London.

Prime Minister R. G. Menzies commenting on the London radio said that the ultimate defence of any country was the morale of the people which to "quite unknown" in England. The critical nature of every day now passing could not be over-emphasized and the next week or two will usher in either a period of intense trial for the people of Britain or the first step in the defeat of Germany.

Germany's attack on the civil population indicates Germany is engaged by failure to penetrate the defence of Britain or she is becoming desperate, the Prime Minister said.

Bombs Inspire

LONDON, Sept. 12.—The sound of dropping bombs was the inspiration for a symphony by Hubert Clifford, young Australian pianist, who completed the manuscript in his air ship shelter.

There are 168,000 miles of telephone wires in the world.

**While the Cost of Living is going UP...
the Cost of GAS is coming DOWN!**

Northwestern Utilities Limited Announce Another REDUCTION —IN— GAS RATES

Effective in Respect of Meter Readings on and After September 26th, 1940

Down go gas rates again in Edmonton. Beginning September 26th customers of Edmonton's Gas Company will benefit by a further \$117,000 yearly saving in the cost for Natural Gas Service. The cost of gas has steadily decreased in Edmonton. Since the fall of 1933 to August 31st, 1940, savings of over \$407,000 have been made by consumers who have elected to use gas under the various optional rates offered by your Gas Company. Continuing our established policy of lowest rates consistent with good service and sound management we are pleased to announce this further reduction.

HERE ARE THE New Reduced Rates

(a) Domestic, Commercial and Industrial General Rate:—

This rate shall be available to all domestic, commercial and industrial consumers, and shall be as follows:

**First 4 M.C.F. or Less—\$2.00
per Month
All Additional M.C.F.—25c
per M.C.F.**

This rate subject to the following conditions: That in case any account is not paid on or before the due date, the charge per M.C.F. (other than the first 4 M.C.F.) shall be increased by 20 per M.C.F., and the gross rate thus arrived at shall apply.

(b) Optional Industrial and Commercial Rate:—

This is a rate available to all commercial and industrial consumers. Complete details furnished on request.

Under the New Rate GAS is the most economical way to Heat your Home

The cost per thousand cubic feet of GAS for heating, under the NEW RATE, is 25c, assuming that gas is also used for cooking and water-heating. This is cheaper than Edmonton coal at \$4.00 per ton, even after including the 6% tax on gas. There is no waste with gas as there is with coal. No kindling is required. The maximum heat required is obtained immediately. When the work for which the fuel has been employed is finished, the burning of fuel may be discontinued instantly with gas. With coal, however, the fire must burn itself out, thereby causing waste.

We shall be happy to have you telephone or come in to ask anything about these New Rates and their possibilities for the wider use of Gas Service in your home.

Toronto Stocks

TORONTO, Sept. 12.—Trading was dull today on Toronto Exchange and prices were moderately weak. Placidity and buying orders were attributed to the marking of the war year and to the fact that the market was not expected to be active for some time.

ATTEMPT MADE TO DYNAMITE ONTARIO MINE

Six Sticks of Explosive Found in Temiskaming District, Report

TORONTO, Sept. 12.—Attorney-General Gordon Connors of Ontario today said an attempt was made to blow up the Kerr-Addison Gold Mine at Larder Lake yesterday.

He said six sticks of non-detonating dynamite were found near a vital spot and the mine likely would have been crippled if an explosion had taken place.

The Larder Lake mine is in the Temiskaming district of northern Ontario.

Mr. Connors directed provincial Police Commissioner W. H. Stringer to send additional police from the Temiskaming district as well as from Toronto to the mine to investigate the matter and guard against any further sabotage attempt.

The Kerr-Addison Mount-Edwards squad and an official of the provincial fire marshal's office at the mine and Acting Inspector W. J. Frank of the criminal investigation branch will arrive there today.

Mr. Connors said he could not give further details.

NEW BRITISH DEFENCE GUNS HIT AT NAZIS

Surprise Blitz-Barrage Meets Raiders During Night Attack

By HAROLD FAIR

Canadian Press Staff Writer

LONDON, Sept. 12.—Londoners were kept awake today after the noisiest night experienced since the war as a first barrage of new British defence guns hit the Nazis.

One source, while explaining the surprise, said that the barrage was a preventive measure, by which raiders are discouraged from attacking the city.

It was said that the barrage was a preventive measure, by which raiders are discouraged from attacking the city.

Scholarships in McGill Awarded

MONTREAL, Sept. 12.—Award of two free scholarships in McGill University under the terms of the Canadian Pacific Railway's annual award to young men and young women employees of the permanent staff under the age of 21, and to minor sons and daughters of employees, is announced by F. J. Curran, superintendent of personnel at McGill in Montreal.

The recipients are: Elizabeth Hillman, of Montreal, daughter of L. C. Hillman, district engineer; and John P. Whitaker, son of F. J. Whitaker, who is employed in the Canadian Pacific department of natural resources at Calgary. Miss Hillman, who is now in her second year at McGill in arts, will receive the scholarship for another three years, while Mr. Whitaker will receive a five-year scholarship in civil engineering at the University.

Looking Them Over

By Jack Kelly
Juniors Away
Make It Solid
Torrid Series

LAST night they deftly demolished an Edmonton Junior Football League and it was the same old story.

When the current football series between the Oilers and Leafs is over there will not be a single sport attraction in Edmonton until hockey starts at least as far as is known at present. That leaves a wide open field for the junior griders in their bid for public appeal.

Clarke Stadium, the first in the west in its appeal with its facilities for modern games. It is the only one in the west that has been built since the war. It is the only one in the west that has been built since the war. It is the only one in the west that has been built since the war.

Such unshared of good fortune is almost certain to be bringing to the Oilers and Leafs a series of victories. They are going to be winning. They are going to be winning. They are going to be winning.

This league is going to make more profit than any sport has made in this city for years. It is going to be a success. It is going to be a success. It is going to be a success.

We all have a good opportunity to family establish junior football in Edmonton for many years. The Oilers and Leafs are the only ones in the west that have been built since the war. They are the only ones in the west that have been built since the war.

The Oilers and Leafs are the only ones in the west that have been built since the war. They are the only ones in the west that have been built since the war. They are the only ones in the west that have been built since the war.

Following this the league should endeavor to provide each club with a substantial net of currency out of which to buy things at credit and so on can be supplied.

City Can Help Materially

RIGHT HERE in the city of Edmonton, the city can help materially in the development of the city. The city can help materially in the development of the city. The city can help materially in the development of the city.

I am going to suggest that the city should charge the Edmonton Junior Football League nothing at all for the use of Clarke Stadium and the floodlights.

My reason for this is that what money the city would obtain from the league would be used to build a new stadium. The city would obtain from the league what money the city would obtain from the league.

The existing lines of Edmonton sports are not so organized as they could be. The Oilers and Leafs are the only ones in the west that have been built since the war. They are the only ones in the west that have been built since the war.

The Oilers and Leafs are the only ones in the west that have been built since the war. They are the only ones in the west that have been built since the war. They are the only ones in the west that have been built since the war.

To be logical, I am suggesting that the city should adopt this no-charge policy for every sporting sport that has a claim to the use of Clarke Stadium. The city should adopt this no-charge policy for every sporting sport that has a claim to the use of Clarke Stadium.

Challenge Series Red Hot

IF you missed yesterday afternoon's exciting game of the challenge series between the Oilers and Leafs, you missed a real treat. The Oilers and Leafs are the only ones in the west that have been built since the war. They are the only ones in the west that have been built since the war.

The Oilers and Leafs are the only ones in the west that have been built since the war. They are the only ones in the west that have been built since the war. They are the only ones in the west that have been built since the war.

Bud Ward Setting Pace In U.S. Amateur Golf

Associated Press Sports Writer

MAMARONECK, N.Y., Sept. 12.—Morton "Bud" Ward, United States Amateur champion from Spokane, Wash., came through Wednesday with 39 holes of three-round golf that sent him into the third round of the 1940 national tournament.

Ward knocked out 64-year-old Elmer Knicker in the first round of money play. He then defeated Knicker in the second round of money play. He then defeated Knicker in the second round of money play.

Ward is a surprise of sorts in the first round of the U.S. Amateur. He is a surprise of sorts in the first round of the U.S. Amateur. He is a surprise of sorts in the first round of the U.S. Amateur.

League All Stars Beat Dodgers 5-2 In Snappy Challenge Series Opener

DICK SPEER'S League All-Stars turned six hits and a rare bit of wildness by Pitcher Tommy Brant into a snappy 5-2 victory over the champion Dodgers yesterday afternoon at Renfrew Park in the opening game of a best-of-five challenge series. Actually the Dodgers out-hit the All-Stars 7 to 6, but Brant wasn't firing with his usual accuracy and issued five bases on balls that the Stars made good use of.

Wally Johnson, the Ponka 'Ace', was opener's starting pitcher for the opener. He hurled the first six innings and was taken for four hits and one run. After then sent Charlie Lewis to pitch the rest of the game, saving Johnson. The Ponka skipper was knocked for three hits and one run in three innings.

The Stars reached Brant for only one run in the first inning, but with a double and a single by Fred Lloyd.

MORGAN TOT BATTLE

Bob Morgan of the Dodgers was knocked out of the game with a head injury in the first inning.

The Dodgers were handicapped by the loss of Morgan in the first inning. They were handicapped by the loss of Morgan in the first inning.

Three Clubs Ready To Start Training

EDMONTON will have a three and possibly four team junior football league in operation at Clarke Stadium by the end of this month. This was assured last night when representatives of the Edmonton Athletic Club, Maple Leaf Athletic Club and the South Side announced at an enthusiastic organization meeting in the Macdonald that they were ready to field teams.

The fourth possible entry is a team from the University of Alberta. Definite entry of such a squad of Golden Cubs can not be made, however, until after Varsity registration which starts Sept. 23.

Cy Burrell, long the power behind the Edmonton Athletic Club, was the main speaker at the meeting for president. He was elected to the position. The executive will have a list of four representatives from each club. The executive will have a list of four representatives from each club.

BOOSTERS SET DAY

With the whole thing hanging on whether or not equipment could be found, President Nick MacPherson of the Sport Booster Club announced that he felt quite sure his organization would be able to loan the ample supply of equipment that is now in storage. He promised to have the matter before the board of the Edmonton Athletic Club by the end of the week.

Dr. Mackenzie, president of the Edmonton Athletic Club, declared that his organization was ready to field a junior team if equipment were available, but could not do so until the matter was decided by the board of the Edmonton Athletic Club.

The South Side club is in the process of being organized, but Cy Burrell will have the matter decided by the end of the week.

DUCK SHOOTERS OPEN FIRE SATURDAY MORNING

National Women's Champ Has Close Call at Coast

SEATTLE, Sept. 12.—Brown-haired Betty Jameson of San Antonio, Tex., the national women's champion, was forced to the 19th hole Wednesday before surviving her second round match in the women's western golf tournament at the Seattle golf club.

Miss Jameson, former co-medalist, was playing slender Ellman Williams, the Chicago club and Illinois state champion, who is the daughter of a Chicago professional. The match headed the day's play, which otherwise was marked by higher scores and more erratic golf than had been the rule earlier in the week.

The other co-medalist, Marion May of Lexington, Ky., had little trouble winning from Mrs. Frank Krueger, Seattle, 6 and 4, although Mrs. Krueger was a former champion.

Miss Jameson's round was a close one, as she had a 10 in the 18th hole, but she won 1 and 2.

Miss May's round was a close one, as she had a 10 in the 18th hole, but she won 1 and 2.

Miss Krueger's round was a close one, as she had a 10 in the 18th hole, but she won 1 and 2.

PENDLETON SEES OLD WEST ROAR

PENDLETON, Ore., Sept. 12.—The old west rose from its grave with a whoop and a better Wednesday as Pendleton ushered in its annual big rhinoceros roundup.

Before a record Friday crowd of 6,000, in the new complete and new grandstand, Rhinoceros Roundup of the round began their four-day battle for top honors in riding, bull riding and roping over nine days.

Before the first round, Mrs. H. H. H. of Seattle, who won the 1939 and 1940 titles, was crowned champion.

Miss May's round was a close one, as she had a 10 in the 18th hole, but she won 1 and 2.

Miss Krueger's round was a close one, as she had a 10 in the 18th hole, but she won 1 and 2.

Government Doctors Ducks

Several "thousand" have been established throughout the U.S. for treatment of botulism, which prevents use of wings and eventually causes ducks to drown. This picture was taken at Tule Lake, Calif., where 2,000 birds have been treated, of which 1,800 recovered after being fed glucose and treated with potassium permanganate. Poul published by U.S. Biological Service employees are sent in pens and released in one to three days.

Fire Control Saves Ducks In Manitoba Marsh Lands

WINNIPEG, Sept. 12.—Proceeding on the theory that destruction of thousands of early duck nests could be eliminated if farmers were properly organized to control spring burning of marsh haylands, Ducks Unlimited (Canada) in April and May supervised burning of 25,000 acres in the great Neely Marshes of Manitoba without loss of a single nest.

In former years, all but a small part of this valuable duck-breeding area has been swept by flames when hayland fires got out of control.

Since then, the marshes have been burned under strict supervision of the Ducks Unlimited (Canada) staff, and the results have been a marked improvement in the duck population.

With the voluntary co-operation of farmers and landowners, the marshes have been burned under strict supervision of the Ducks Unlimited (Canada) staff, and the results have been a marked improvement in the duck population.

Still Ample Supply Of Shells and Guns

By JACK KELLY
Edmonton Bulletin Sports Editor

NAZI airmen, unlikely enough to draw assignments to attack London, are the only people who can tell you exactly how many ducks in these parts are going to be shot at dawn on Saturday. When the sun comes up that morning it will be the signal for a barrage of shot to go up from thousands of gunners scattered over every duck marsh from the Athabasca and Clearwater river in the north to the main line of the C.P.R. through Duthill, Calgary and Medicine Hat in the south of the province.

It's the opening of the duck shooting season in case you haven't quite guessed it from the foregoing. What is more, you can keep right on hanging away until November 18 if your ammunition holds out and you don't care whether or not you are sued for divorce by your ever loving wife.

However, the law says you can't shoot more than 12 ducks in a day or 100 during the entire season. What is more, if you have more than 300 ducks in your possession at any one time you are liable to be telling it all to some magistrate.

NO UPLANDERS
Saturday brings open season on ducks, geese, rail, coot (poulin) and Widgeon, but for the law, make don't start getting ruffed grouse, Hungarian partridge or prairie chicken—sharp labels to you express. These upland game birds are taboo until October 1.

There is no further education on the technical and legal aspects of shooting season. Get yourself a shooting license or keep your lawyers' telephone number handy. The law isn't accepting any alibis about not knowing, etc., etc.

It's been many a long year since there has been any ducks around as there are just now. Open season means you're shooting for thousands of little ploughs and potatoes, as they call them here, are full of water and the big waves are a good deal more than a little bit of a nuisance.

FEEDING IN FIELDS
Ducks are already feeding in grain fields, and it's a good idea to keep them away from the fields. They are already feeding in grain fields, and it's a good idea to keep them away from the fields.

With a common sense, I hope to report that the ducks are already feeding in grain fields, and it's a good idea to keep them away from the fields.

Y.M.C.A. OPENS FALL PROGRAM SEPTEMBER 16

Increased keep-fit possibilities are available at the Edmonton Y.M.C.A. with the opening of the fall and winter physical program on Monday, Sept. 16, it was stated by James A. McConnell, B.P.E., recently appointed physical director.

"Get Fit and Keep Fit" will be the basis of all activity in the department which will commence a wide range of activities, including classes in Monday, Wednesday and Friday will supplement the usual 2:30 p.m. class which will also be held on Monday, Wednesday and Friday. Special attention to individual health examination and conditioning exercises will be given.

For younger men and seniors a wide range of activities, including basketball, volleyball, badminton, weightlifting, swimming instruction, life saving, etc., will be given. For those who want special individualized exercise periods new accommodations have been made.

James A. McConnell, recently appointed as physical director, has had wide experience at Balliol, Indiana, and New Westminster while studying from George Williams college in Chicago.

HIGH STANDARD WAR TRAINING TO BE REQUIRED

Members of the Non-Permanent Active Militia of present draft age must satisfy military authorities that the training they received in their units was equal to or better than that which they would receive during the 30-day training period.

Under the compulsory training provided by the War Services Act, according to Brig. G. E. Connolly, D.S.O., officer commanding Military District No. 13, the following units were incorporated:

Maj. D. K. Cunningham, M.C., arrived in Edmonton Thursday morning in order with W. A. R. Kerr, D.S.O., of the University of Alberta, on C.O.P.C. training.

Brig. Connolly expressed satisfaction with the work of the military units at Camp and stated that the N.C.O.'s and men of these units were quite keen on their training. He also mentioned that the men of all units displayed a keenness seldom seen in military ranks.

The keenest competition existed between the units he stated, with the result that suggestions of the "joint General" were not necessary.

Col. M. W. Brown, D.S.O., M.C.

Hon. Col. J. L. Raiston, minister of defence, expressed his thanks Tuesday for the representation of the military units.

satisfaction with the keenness of the men, the tidiness of the camp lines and the progress made in training.

A feature of the camp training was the practical demonstration of gas attacks and other war methods. These demonstrations were staged, Brig. Connolly stated, because active participation would teach more than could be learned and remembered from oral instruction.

**Mrs. P. Castor
Passes In City;
Funeral Friday**

Mrs. Paul Castor, 62, wife of Paul Castor, well-known in photography circles here, passed away Wednesday.

Mrs. Castor was born in Kentville, Nova Scotia. She leaves her husband; one daughter, Mrs. F. J. Stewart, Camrose, Alta.; one son, Paul M., Jr., Chicago; five sisters, Mrs. Fred Asseline, and Mrs. W. Palmer, Boston, Mass., and Mrs. George Perry, Mrs. F. Coray, Miss Nellie Dwyer, all of Kentville; and one

Funeral services will be held Friday at 2 p.m. with Rev. A. M. Trendall officiating, at Andrews funeral chapel. Interment will be made in the mausoleum of the Edmonston cemetery.

Rogus money to a total of \$200.00 was passed in the United States during 1939, according to the Secret Service.

CASE UNIT

GETTING RIGID TRAINING HERE

Training of the Edmonton Fusiliers, C.A.S.F., is going ahead favorably, stated Lieut. J. W. Bishop, Adjutant of the unit, Thursday. A total of over 15 officers, 11 non-commissioned officers and 410 men have been outfitted with clothing and web equipment. It was announced early this week by quartermaster

Latest recruits to be taken on the strength of the unit included a group of 20 men from the Calgary district. Earlier in the week another group of 20 was recruited from the Banff district by Lt. Col. Louis Scott, D.C.M., recruiting officer for military district 13.

Members of the Fusiliers unit are now fulfilling various Garrison tasks such as mounting guard, etc. The men are well equipped and have both the serge and summer drill uniforms.

Officers of the unit are undergoing a rigorous course of training.

Under Captain Walter Kott, former adjutant of the 10th Cavalry, the dragons. The platoon of 12 officers receives instruction in all phases of military training.

Stained Glass Church Window To Be Dedicated

Unveiling and dedication of the new stained glass window in Metropolitan Church will take place at the special Flower Day service in the church Sunday morning.

The window will be officially inaugurated at the end of the Women's

Mrs. P. H. Mortimer, Edmonton artist, painted the window which is the first of a series of memorial windows which will be installed from time to time by friends of the church.

Midget States of Europe Are Strongly Affected By Big Neighbors at War

DELEGATES TO STAND FOR NEW LABOR HEADS

TORONTO, Sept. 12.—Anti-administration forces were marshalled Wednesday night at a planned forward to present a "state" in opposition to the present administration of the labor movement. Delegates to the congress of industrial organizations, joining the congress of labor, delegates said they were "up in the air."

H. T. Harrison, president of the London Labor Council, said it was "obvious that the delegates are coming as to how it (union) came about. The C.I.O. men came into this situation the same as we did."

President A. R. Moberg said the agreement was not consummated until about one day before the Congress met. "If day-to-day reports had been made, it might have been a different story," he said. "They would have given our enemies a chance to see a picture of the union machinery and stop the merger."

Many C.I.O. unions were not affiliated (eventually) with the Congress until last week, and the work had been completed since we probably would have been a complete report to each local union on what was done. But the opportunity did not present itself.

At the close of yesterday's session, an hour of \$1,000 was voted to Mr. Moberg and the salary of the secretaries was increased from \$2,000 to \$2,500 a year.

Conferences Called

SASKATOON, Sept. 12.—Two conferences were called by Saskatchewan farmers to discuss agricultural problems in the light of the war.

Donates His Legs

LONDON.—The aluminum collection here has been increased by the donation by Alderman A. B. Bick, Birmmgham Council, of two artificial limbs.

By CHARLES FOLTZ, JR.

Associated Press Staff Writer

BERNE, Switzerland, Sept. 12.—

Four postage-stamp-sized inde-

pendent states in war-torn Europe

still are neutral and still are

doing business on their old

standards, but they are none-the-less

strongly affected by the vic-

itudes of their big neighbors.

Andorra in the Pyrenees, Liech-

tenstein on the Rhine, Monaco on

the Riviera and San Marino, inside

Italy, are the only states in Europe

for one sale cannot each—and all are

hoping to be let alone when new

peace treaties are written.

—Monaco—has reason to be

pleased. This realm of Prince

of Monaco, France, which is occupied

by Italian troops. Until the armis-

tice Prince Louis was the uniform

of a French general although his

country was at peace.

WANT MOSCOW

When the French collapsed militarily,

the prince, who had permitted

French troops to pass through his

state under treaty, turned his

semi-military, brilliantly-uniformed

force and took off his own uni-

form.

Now Italian established in the

border town of Ventimiglia have

been ordered to pass through his

state. "We want Moscow," he said.

All four of the little states have

been in economic distress since

the war began.

Andorra is the best off. Although

income is derived mainly from

the sale of postage stamps, mun-

itions among little states are used

and its 5,200 citizens, mainly farm-

ers and shepherds, are getting better

protection from the troops and

gangs.

Monaco, a tiny principality, which

was almost empty last summer, now

is almost full of tourists. It is

the only state in Europe which has

not been invaded by the Germans.

San Marino, one of the oldest

of Europe, suffers a shortage

of tourists and postage stamp

revenue, but enjoys the protec-

tion of Mussolini whose Italian

troops surround the little state.

Today, with four Italian days

and no coffee in Italy, and Italian

troops in the office and eat all the

bread he wants any day in San

Marino.

Under Swiss

Leichtenstein's young ruler, Prince

Joseph, is one of the few

in Europe. The population of

the little state is about 3,500. It

is the only state in Europe which

has not been invaded by the Ger-

mans. It is the only state in Europe

which has not been invaded by the

Germans. It is the only state in

Europe which has not been invaded

by the Germans. It is the only

state in Europe which has not been

invaded by the Germans. It is the

only state in Europe which has not

been invaded by the Germans. It

is the only state in Europe which

has not been invaded by the Ger-

mans. It is the only state in Europe

which has not been invaded by the

Germans. It is the only state in

Europe which has not been invaded

by the Germans. It is the only

state in Europe which has not been

invaded by the Germans. It is the

only state in Europe which has not

been invaded by the Germans. It

Canadian Troops Man Iceland's Defences

The photo just received via transatlantic clipper and passed by the British censor shows a group of British and Canadian troops manning a road near Reykjavik, Iceland, which the British occupied after Hitler's invasion of Denmark.

ANARCHY NOW IS SPREADING OVER RUMANIA

BUCHAREST, Sept. 12.—Release

from prison of a number of pro-

Pravda from Guards convicted of

plotting against former King Carol

was ordered last night by Young

King Michael in what observers

regarded as a further attempt to

placate the nationalist organiza-

tion which forced the abdication

of his father.

The young king's amnesty decree

followed a broadcast warning by

Premier-Dictator Gen. Ion Antones-

cules, believed to be directed espe-

cially against the Guardists. But

Swiss protestants and has adopted

the Swiss cantonal system of food-

stuffs and gasoline.

San Marino, one of the oldest

of Europe, suffers a shortage

of tourists and postage stamp

revenue, but enjoys the protec-

tion of Mussolini whose Italian

troops surround the little state.

Today, with four Italian days

and no coffee in Italy, and Italian

troops in the office and eat all the

bread he wants any day in San

Marino.

Under Swiss

Leichtenstein's young ruler, Prince

Joseph, is one of the few

mans. It is the only state in Europe

TANKS WILL BE MANUFACTURED IN DOMINION

OTTAWA, Sept. 12.—Canada's

land bridge now being trained

to produce tanks, and the military

has decided to build a new small

army in 1941, slightly larger than

the standard American army cal-

iberated.

Production of several classes of

tanks, including one combining

British and American design, will

be started soon, he said, and the

machine will be delivered in Feb-

ruary.

Some experimental, light, high-

speed tanks will be ready for test-

ing within 40 days, the minister

said. The Dominion heavy industry

has developed a new and highly

satisfactory armored car, and is

also producing a new light tank.

Mr. Howe received a dozen

Ontario correspondents in his of-

fice to review the progress of war in-

dustry in Canada which he said

was representing a most important in-

vestment by Canada and Great Brit-

ain.

Only 6 per cent of the automobile

industry involved in fatal accidents

is female.

RIFLE SUPPLY SHORTAGE IS NOW REMEDIED

Government Secures Arms

From United States For

Training

OTTAWA, Sept. 12.—Purchase

of 80,000 rifles from the United

States announced Wednesday by

Munitions Minister Howe, solves

the problem of rifle supply for

troops in training in Canada for

the time being.

At the same time it creates a prob-

lem of ammunition supply in that

the American side of a different

caliber to those in use in Cana-

da. Arrangements are already

under way to deal with this prob-

lem.

Along with the rifles the Canadian

government bought a supply of

United States ammunition in

enough to carry on with until car-

tridges to fit the American rifle can

be made in Canada. Mr. Howe said

a new small arms ammunition plant

now being fitted up will be equip-
